

Grange

Sacramento

Grange is a culinary expression of all things local, reflecting the authentic essence and soul of the community. The menu showcases the market-driven bounties from the state and is best described as simple, seasonal and soulful. Organically raised meats and poultry are complemented with the freshest produce available from the Central Valley, while sustainable coastal seafood is paired with a spectacular all-California wine list. The entrees are presented in a straightforward American brasserie style. Lastly, enjoy the creations from our pastry chef such as rustic artisan breads and desserts. This Sacramento restaurant's setting is both classic and authentic. The two-story space combines architectural elements from the building's rich history with exposed beams and concrete columns to create a surprising and urbane, loft-like atmosphere. Semi-private, clubby booths and the very private Citizen Room peer down to the main dining level from the mezzanine above. Visit Grange
